Minimizing the Pain of Chemo and Radiation Side Effects

For Prevention of Radiation Dermatitis
When to Use RadiaPlexRX® Gel:
- Prior to radiation and radiation dermatitis
- Dry & moist desquamation skin
- 1st & 2nd Degree Burns
- Cuts & Abrasions

How to Use:
- Cleanse with MPM Wound and Skin Cleanser and allow drying
- Apply RadiaPlexRX Gel 1/4” thick – 3 times daily during treatment plus 2 weeks after treatment
- Cleanse the irradiated area with a suitable wound cleanser such as MPM Wound & Skin Cleaner.
- Apply a generous amount of RadiaPlex from the first day of treatment three times per day, seven days a week to the treated areas; gently rub/message into the areas until RadiaPlex is completely absorbed.
- RadiaPlex should be applied immediately after treatment 3 times a day for maximum results.
- RadiaPlex may be applied as indicated by the treating physician. Do not apply 2 hours before treatment or directed by the treating physician. Do not apply 2 hours before treatment or directed by the treating physician.
- Continue to apply Radiaplex as described above until the skin has fully recovered.
- Do not interrupt applications during the course of the radiation therapy, even for one day.

Benefits to Patient:
- Aches to skin tissue
- Provides moisture to skin cells
- Helps prevent radiation damage
- Non greasy or sticky

For Treatment of Erythema or Moist Desquamation
When to Use SilverMed™ Gel:
- Allergic to Sulfa in Silvadine
- Skin abrasions, lacerations and tears
- Delayed-healing with pressure, foot, and leg ulcers
- Highly colonized wounds
- When an antimicrobial barrier is needed
- Help prevent Staph & Pseudomonas infection
- Help prevent MRSA & VRE
- Help prevent E. coli
- 1st & 2nd degree burns
- Reduce pain from EGFR inhibitors

How to Use:
- Cleanse with MPM Wound and Skin Cleanser and allow drying
- Apply SilverMedGel 1/4” thick & Regenecare Gel Pad 3Xs daily or as needed
- Apply dressings in accordance with your protocol

Benefits to Patient:
- Absorbs Minimal Drainage
- Reduces pain with 2% Lidocaine
- Reduces itching and inflammation
- Provides moisture to the skin cells and wounds
- Builds structure to damaged skin

For Treatment of Skin Necrosis or Laceration
When to Use CoolMagic™ Hydrogel Dressing:
- Radiation Dermatitis
- Pressure Ulcers Stages I-II
- Partial-thickness wounds
- Draining and non-draining wounds
- 1° and 2° degree burns
- Non-infected wounds

How to Use:
- Cleanse with MPM Wound & Skin Cleanser or Laceration Wound Cleanser
- Open package and remove CoolMagic Gel Sheet
- Remove and discard colored film backing
- Hold in place with tape or dermal wound or as needed

Benefits to Patient:
- Absorbs three times its weight of drainage
- Hydorphilic – creates moist wound environment
- MInimizes damaging skin tissue upon dressing removal
- Assists in prevention of contamination and infection

For Treatment of Radiation Dermatitis
When to Use Regenecare Gel:
- 1st & 2nd Degree Burns
- Cuts & Abrasions
- 1st and 2nd degree burns & cuts
- Dry & moist desquamation
- Reduce pain in partial and full thickness wounds
- Reduces pain with 2% Lidocaine
- Highly colonized wounds
- When an antimicrobial barrier is needed
- Help prevent Staph & Pseudomonas infection
- Help prevent MRSA & VRE
- Help prevent E. coli
- 1st & 2nd degree burns
- Regulate hydration by donating moisture

How to Use:
- Cleanse with MPM Wound and Skin Cleanser and allow drying
- Apply Regenecare Gel 1/4” thick – 3 times daily during treatment plus 2 weeks after treatment
- Cleanse the irradiated area with a suitable wound cleanser such as MPM Wound & Skin Cleanser.

For Treatment of Oral Mucosa
When to Use OraMagic®Rx or OraMagicPlus®:
- Oral mucositis
- Aphthous ulcers
- Stomatitis
- Esophagitis
- Canker sores
- Braces
- Gum soreness
- HIV related mouth sores (OraMagicPlus®)
- Dental sensitivity (OraMagicPlus®)

How to Use:
- Step 1: Fill bottle with water to the first line and shake vigorously
- Step 2: Add water to the second fill line and shake vigorously
- Step 3: Swish one tablespoon slowly around mouth
- Step 4: Spit out remaining liquid
- Step 5: Repeat one hour after first application
- Step 6: Apply up to 4Xs daily or as directed

Benefits to Patient:
- Instant pain relief with Benzocaine
- (OraMagicPlus®)
- Protects and reduces further irritation and painful sensations
- Pleasent taste
- Coats injured oral mucosa
- Reduces inflammation
- Moisturizes and breaks down slough
- Relieves pain
